

Commercial plumbing services — including 24/7 emergency repairs for all your plumbing, water and sewer issues.

CONTINUUM PLUMBING SERVICES keeps you flowing providing customers with the greatest quality and service possible for all commercial building concerns.

- > 24/7 Emergency Plumbing Repairs
- > Remodeling & Plumbing Renovations
- > Back Flow Certification Testing & Replacement
- > Excavation & Underground Piping
- > Color Video Scoping of Sewers
- > Drain Cleaning & Auguring Services
- > Air & Process Piping
- > Epoxy Pipelining & Cured-in-Place Pipe (CIPP)
- > Sewage Ejector Pits & Pumps

Offering clients an alternative... Cured-in-place Pipe (CIPP) is a cost efficient alternative to traditional methods of pipe replacement. This “no dig” method offers you the structural strength of new pipe but is less invasive and more environmentally friendly.
